IN-360

THE SIMPLE, VERSATILE CHOICE FOR DESKTOP MAILING AND SHIPPING

Optimize efficiency. Ensure quality.

WE VALUE YOUR MAIL

IN-360

OPTIMIZE EFFICIENCY. ENSURE QUALITY.

When it comes to meeting your mailing needs, businesses today count on streamlined solutions that will keep their offices running smoothly. As the USPS® continues to introduce new mailing and shipping requirements to the market, decision makers want to ensure the solutions they invest in are versatile enough to keep up with the latest changes. With an iMeter™ postage meter and neoShip online shipping software, the IN-360 has you covered.

MAIL PROCESSING MADE SIMPLE

- When processing mail on an IN-360, you never have to guess the weight of the items you are mailing. The standard integrated 5 lb. scale, or optional 10, 30, or 70 lb. weighing platforms ensure you know the correct weight of each mail piece every time, preventing over posting.
- Optional Differential Weighing with Smart Start technology helps simplify the mail processing experience.
 - With Differential Weighing, simply place mixed weight mail on the scale, remove an envelope and the correct rate is calculated.
 - Each time an envelope is removed from the scale in differential mode, the powerfeed starts and is ready to process mail.
- A default postage setting eliminates errors and saves time. When the mailing system is powered up, a default postage value is displayed.
- The Rate Wizard simplifies the process of selecting the correct postal rate and class for your items. With clear step-by-step instructions, the selection process has never been easier.
- With standard Rate Chaining, if an item weighing more than 13 oz. is placed on the scale, the system will automatically switch to a Priority Rate to help simplify the rate selection process.
- Shortcut keys save time and eliminate keystrokes. With the IN-360, you can choose the most commonly used postal rates with ease, as well as customize and save the settings of your most frequent jobs.
- Personalize items and help promote your business with ad slogans, custom text messages, QR codes and company logos.

USB PORT

Experience seamless downloads with a high speed internet connection – refill postage funds, download USPS® rates, and process items with optional neoShip online shipping application

HAND FEEDER

Smooth powerfeed provides fast batch processing

MOISTENER

Automatic sealing with an easy access reservoir ensures a perfect envelope seal

CLEAN MODERN SPACE-SAVING DESIGN

NEOPOST iMETER™ POSTAGE METER AND BUSINESS APPS

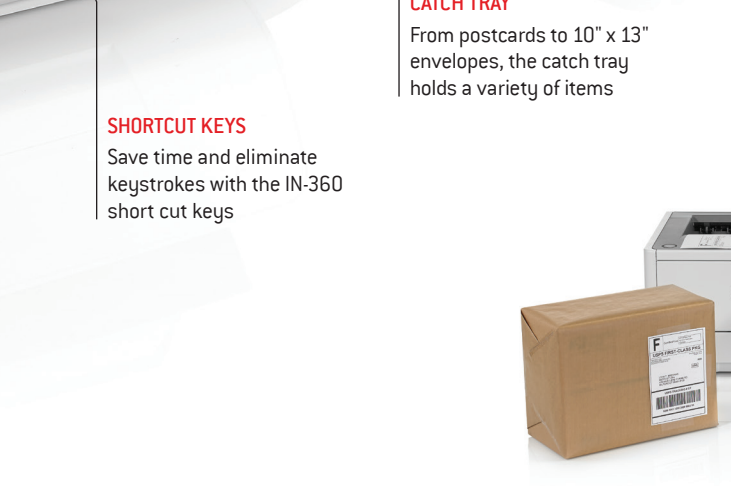

INTUITIVE CONTROL PANEL

USER-FRIENDLY MAIL PROCESSING

WEIGHING PLATFORM

Standard 5 lb. integrated scale handles postcards, envelopes and small packages with ease. Choose an optional 10, 30, or 70 lb. weighing platform for larger items

CATCH TRAY

From postcards to 10" x 13" envelopes, the catch tray holds a variety of items

SHORTCUT KEYS

Save time and eliminate keystrokes with the IN-360 short cut keys

NEOPOST iMETER™ POSTAGE METER AND BUSINESS APPS

The Neopost iMeter™ postage meter is an Internet-connected smart device that provides functionality beyond the traditional postage meter. Interfaced to a myNeopost account, you will be able to view mailing system data, basic account management and access a wide range of Apps – all of which enhance mailing operations and control costs.

Low ink email alerts keep you abreast of your ink usage and simplify ink cartridge reordering. With the IN-360, postal rate changes are hassle free with direct rate downloads, which ensure full postal rate compliance.

Available iMeter™ Apps

- Postal Rates App
- Online Postal Expense Manager™ App
- E-Services App
- E-Services with Electronic Return Receipt™ App
- neoFunds® App

THE SIMPLE, POWERFUL CHOICE FOR ONLINE SHIPPING

As an option for the IN-360, neoShip online shipping software meets the latest USPS® IMpb (Intelligent Mail Package Barcode) requirements. Simple to use, neoShip software is accessible through your myNeopost online account. With neoShip you will benefit from:

- **Automatically qualifying for Commercial Base® Pricing** – Save up to 23% on Priority Mail® and 9% on Priority Mail Express™.
- **Creating IMpb compliant shipping labels in minutes** – With an intuitive interface, labels are created in four easy steps.
- **Consolidated views of all shipments** – Stay informed by tracking each package as it travels to its destination.
- **Generating detailed reports based on shipment history/operator shipments/transactions** – Great for accounting and department chargeback.
- **Centralized processing of mail and parcels** – The IN-360 coupled with neoShip satisfies all of your mailing and shipping needs.
- **Free address correction services** – Ensure “Ship To” addresses are up-to-date and prevent delays.
- **Free insurance coverage** – On Priority Mail® (up to \$50 value) and Priority Mail Express™ (up to \$100 value).

IN-360

OPTIMIZE EFFICIENCY.
ENSURE QUALITY.

DESIGNING THE MOST ECOLOGICAL SOLUTIONS

Neopost is dedicated to improving the sustainability of its activities and the environmental performance of its products at each stage of the lifecycle. The Eco label reflects our desire to make customers aware of the environmental progress we have made in recent years. A sticker is placed on all models that meet Neopost's environmental requirements.

The Eco label indicates implementation of key concepts to reduce or eliminate impact on the environment. This includes the use of environmentally sensitive materials, choice of raw materials, weight reduction, packaging, energy savings, lifecycle extension and end-of-life management. The Eco label aims to provide a clear and consistent set of environmental performance criteria for Neopost products, in order to recognize efforts made during the design phase.

The IN-360 carries Neopost's Eco label ensuring our commitment to the environment.

RAW MATERIAL: We limit the weight and number of materials used when producing our solutions (44% less material and 10.5% fewer components than previous generation mailing systems).

PACKAGING: We reduce the volume of our packaging and use only cardboard which is fully recyclable.

ENERGY: The energy consumption of our products has been reduced with the IN-360 standard "sleep mode" feature. In addition, we offer remote support whenever possible to reduce travel-related energy use.

SPECIFICATIONS

OPERATIONAL EFFICIENCY

Processing speed	Up to 45 lpm
Feeding capability	Semi-automatic hand feed
Envelope minimum/maximum	3.5" x 5"/10" x 13"
Envelope thickness	Up to 3/8"
