Small footprint, big output.

If the Toshiba e-STUDIO2505H/2505F were simply a letter-sized MFP, you'd be impressed. But we didn't stop there. We kept going until 11" x 17" output could be printed using the bypass. What more could you ask for from such a small footprint and price?

Small businesses, big benefits.

Toshiba technology and functionality are now available in a power-packed, letter-sized printer with large, ledger-sized support. The e-STUDIO2505H/2505F MFP delivers impressive black and white output at 25 pages per minute. You can copy, print, and scan—including precise color scanning—and even fax, with the e-STUDIO2505F. Network connectivity and USB 2.0 come standard, with 802.11 B/G/N wireless connectivity available as an option. In short, small offices and workgroups can take advantage of everything Toshiba has to offer for today's budget-conscious, results-oriented businesses.

Features galore.

Don't be fooled by the small footprint. In addition to offering ledger printing via the bypass, the e-STUDIO2505H/2505F has a 300-sheet capacity when you combine the bypass with the 250-sheet cassette. Also using the bypass, you can print professional looking envelopes to your exact specifications. There is also an ID card copying feature, and automatic duplexing comes standard. Warm-up time is an impressive 20 seconds, with the first copy out in just 7.1 seconds. Whatever you want from an affordable, letter-sized MFP, the e-STUDIO2505H/2505F has it, and more.

Now smaller businesses can think big with the power, functionality, networking capabilities, and ledger-size output to back it up.

Why settle for less?

Speed, versatility, reliability and affordability. The benefits are as impressive as the features. Like department code support—up to 100 codes, an electronic counter, auto job start, 2400 x 600 dpi (with smoothing), and scan to USB. You'll find just as much, if not more, from the e-STUDIO2505H/2505F. All packed into a footprint that small businesses can appreciate. Letter or ledger, scan or copy, network or USB, the e-STUDIO2505H/2505F makes more available, for less. It's the MFP you've been waiting for.
