IN-LINE OR *STANDALONE*
TABLETOP TABBER

HT20

Searching for a medium to high-volume tabber that offers flexibility and speed? Hasler has the answer! Our HT20 is the only tabber available in its price range that applies one, two or three tabs, either in-line or standalone. The HT20 tabletop tabber is fast and reliable, enabling you to place up to three tabs in a single pass – at speeds up to 20,000 pieces per hour. Perfect for processing mass mailings of non-traditional pieces, such as brochures, newsletters, double postcards and more. Hasler's HT20 lets you tab or stamp quickly and cost effectively. It is ideal for mid- to high-volume tabbing and direct mail preparation in fulfillment houses, commercial printers, in-house production shops and businesses that process large quantities of daily mail.

Features that cut your costs and increase efficiency:

- Applies one, two or three items in a single pass – with throughput speeds up to 20,000 tabs per hour

- Tabs or affixes stamps

- Programmable job settings

- In-line configuration capability with Hasler's high-speed mid-production address printers

Versatile, fast and reliable

for maximum efficiency!

HT20

A FAST, EFFICIENT, VERSATILE TABLETOP TABBER

Simple programming and set up: Four programmable job settings with single-key job selection.

Fast Mail Processing: Throughput speeds up to 20,000 pieces per hour.

Reduces downtime and improves productivity: Accepts rolls up to 16" (30,000 tabs); reduces the number of roll changes and provides longer run times.

Side tabber design: Allows the application of one, two or three items (tabs or stamps) in a single pass.

Accepts various types and sizes of media: From 3" x 5" to as large as 13" x 17".

Multiple tabbing options: Applies paper, clear or translucent tabs from as small as ¾" to as large as 1 ½" – with or without perforation.

Easy to read, large backlit display: Communicates job piece count, machine status and more.

Hasler Can Help You Build Your Total Mailing Solution

Count on Hasler for complete, end-to-end, fully compatible solutions for all your production and mailroom needs. Utilize the HT20 with its own feeder, and run product fast and accurately for off-line operation. Or use in-line with Hasler's high-speed mid-production address printers to tab and address in one simple step.
